21st Century Board Leadership for Value Creation

The Effective Exercise of Fair and Wise Power

Dear FSACCI Member,

To contribute to the debate in the region about the value of effective and value-creating boards, and support INSEAD in sharing its expertise in this field, the **INSEAD Alumni Association South Africa** and **INSEAD**, in collaboration with the **Johannesburg Stock Exchange**, are pleased to invite you to the first INSEAD Governance Event themed “**21st Century Board Leadership for Value Creation**” on 21 September at the **Johannesburg Stock Exchange**, Sandown, Johannesburg, South Africa from 8.00 to 12.30.

The [INSEAD Corporate Governance Initiative \(ICGI\)](#) is the hub of INSEAD's activities in governance and harnesses INSEAD's expertise in multiple disciplines – accounting, finance, economics, strategy, risk-management, entrepreneurship, family governance, organisational behaviour and corporate social responsibility – for a comprehensive and sustainable response to the challenges facing directors today.

The event will bring global thought leadership in governance as well as better practices going beyond statutory compliance to South Africa. It is intended to serve serving members, wishing to sharpen their Board leadership for 21st century governance, and manage their fiduciary responsibilities effectively. The value offered to senior managers, is an opportunity to stay current with global patterns in and issues affecting Board leadership,

in order to position themselves better for future Board roles. This event will also equip high performing young professionals, aspiring to Board membership, with insightful perspectives on the importance of governance and inform them of future trends.
