Time Allocated: 30 minutes

Orange Business Services – Presentation Synopsis

During this presentation Orange will discuss and give insight into the global Cyber Defense landscape and the link into our global customers' digital transformation journey. Orange will relay insight into Security in the digital age and how best to address the growing sophistication in attacks and how to manage through a tiered approach.

Orange will also introduce "John Smith" – a typical end user navigating through an enterprise corporate environment and how Cybersecurity technology interlocks into his daily life.
